

TIMELINE

One month+ before shoot:

- Book any hair/makeup artist for your shoot
- Get your hair done well in advance of the shoot
- Plan and purchase your outfits

Week of your shoot:

- Nails
- Iron/steam all clothes and hang up to reduce wrinkles

THINGS TO BRING WITH YOU

- Baby wipes or a hand towel in case there are messes
- Bug spray
- Hair brush
- Dry shampoo
- Bribery items for little kids (M&M's, goldfish, pouches, etc.)
- A favorite video or song ready to play in case we need a distraction (Cocomelon, Sesame Street, Baby Shark, etc.)

OUTFITS

- Your clothing is all about highlighting your own personal style, just make sure it is clean and wrinkle free!
- If you are having a hard time finding outfits, I suggest looking for Instagram and Pinterest inspiration to help get the juices flowing
- Keep in mind the colors that not only look best on you, but that also go with your overall aesthetic. If you decide to print these photos and have them framed, they should work in your home.
- Avoid multiple members of the family wearing patterns, especially plaid or flannel.
- If you are going to opt for black, add a point of interest to your outfit like a statement necklace, belt, or hat to ensure you pop
- Lean towards complimentary colors rather than focusing on "matching"
- When in doubt, neutrals are always a timeless option, and they work in any location!
